

Hi Aaron,

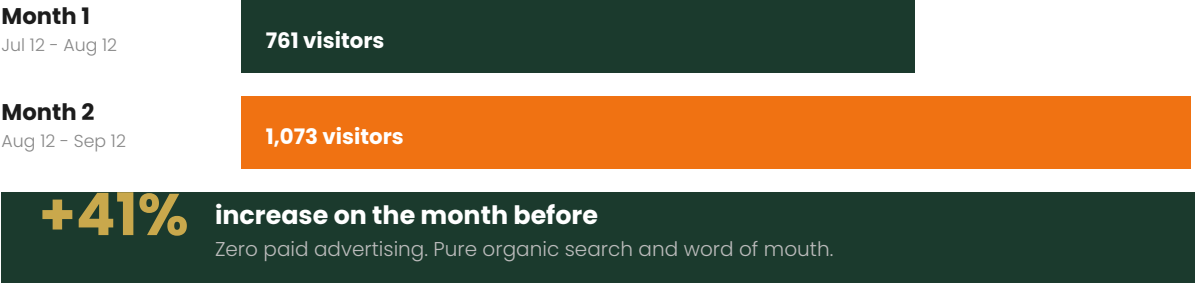

Here is your site review for the first two and a half months retyred.co.uk has been live. The numbers are really solid for a brand new site with zero ad spend - and month two was up 41% on month one.

You are one of my founding clients, Aaron - and I won't forget that.

The site is growing well and doing exactly what it should be. These three small additions below will get you even more visitors for a fraction of the price of your website. I want to help my early clients get the most out of what we have built together.

THREE WAYS TO GET EVEN MORE FROM THE SITE

01 Google Business Profile

More local search visibility

When people search 'tyres Burgess Hill' a map box appears at the top of Google with local businesses. Re-Tyred is not in that box yet. Setting this up is free and I will handle it for you - it can double the number of people finding the site through local search.

02 Facebook Business Page

Turn word of mouth into real reach

You already have 32 visitors coming from Facebook without a business page - purely from people sharing it. A proper business page lets you post offers, collect reviews, run boosted posts, and gives customers somewhere to message you directly. Low cost to set up, big return.

03 SEO and Metadata Improvements

More Google traffic, same site

Google is already your number one source with 684 visits. With a few targeted tweaks to your page titles, descriptions and local keywords we can push that even higher - from page 1 to position 1 for searches like 'part worn tyres Burgess Hill'.

KNOW SOMEONE WHO NEEDS A WEBSITE?

10% referral commission - straight to you

My standard site price is £3,500. Send someone my way and if they sign up you get £350 cash - just for the introduction. No strings, no fuss.
